Log In

LEA Insights is supported with latest version of Microsoft Edge, Google Chrome, Mozilla Firefox browsers.

ADE Users

Please enter your username in the form of **ade\jdoe**

District and Co-Op Users

Please enter your State Active Directory credentials (e.g. **8080jdoe**). The e-mail address associated with your State Active Directory account must be registered as one of the following in SIS LEA Profile for your district or co-op:

- Superintendent (Coordinator Code='U')
- Assistant Superintendent (Coordinator Code='X')
- SIS eSchoolPlus Coordinator (Coordinator Code='S')
- SIS eFinancePlus Coordinator (Coordinator Code='F')
- Technology Coordinator (Coordinator Code='T')
- Testing Coordinator (Coordinator Code='C')
- CTE Coordinator (Coordinator Code='Z')
- Transportation Director/Bus Inspector (Coordinator Code='B')
- Facilities / Maintenance Director (Coordinator Code='0' (Zero))

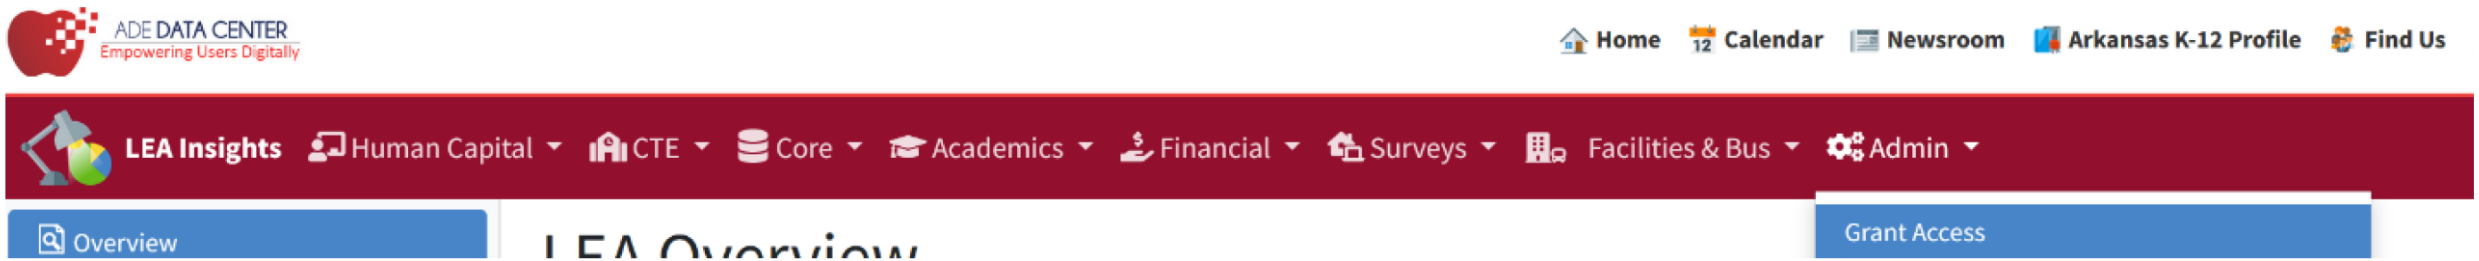
School Users

The e-mail address associated with your State Active Directory account must be registered as a Principal (Coordinator Code='P') in the SIS LEA Profile for your district.

LEADERSHIP SUPPORT SERVICE

Granting access to other users

Post Log-On, click on Admin tab → Grant Access



Once logged in, superintendents can grant access to other users using the Admin icon.

Granting Access Guidance Document

Please note that you are giving access to confidential information on teachers and students and privacy protections apply.

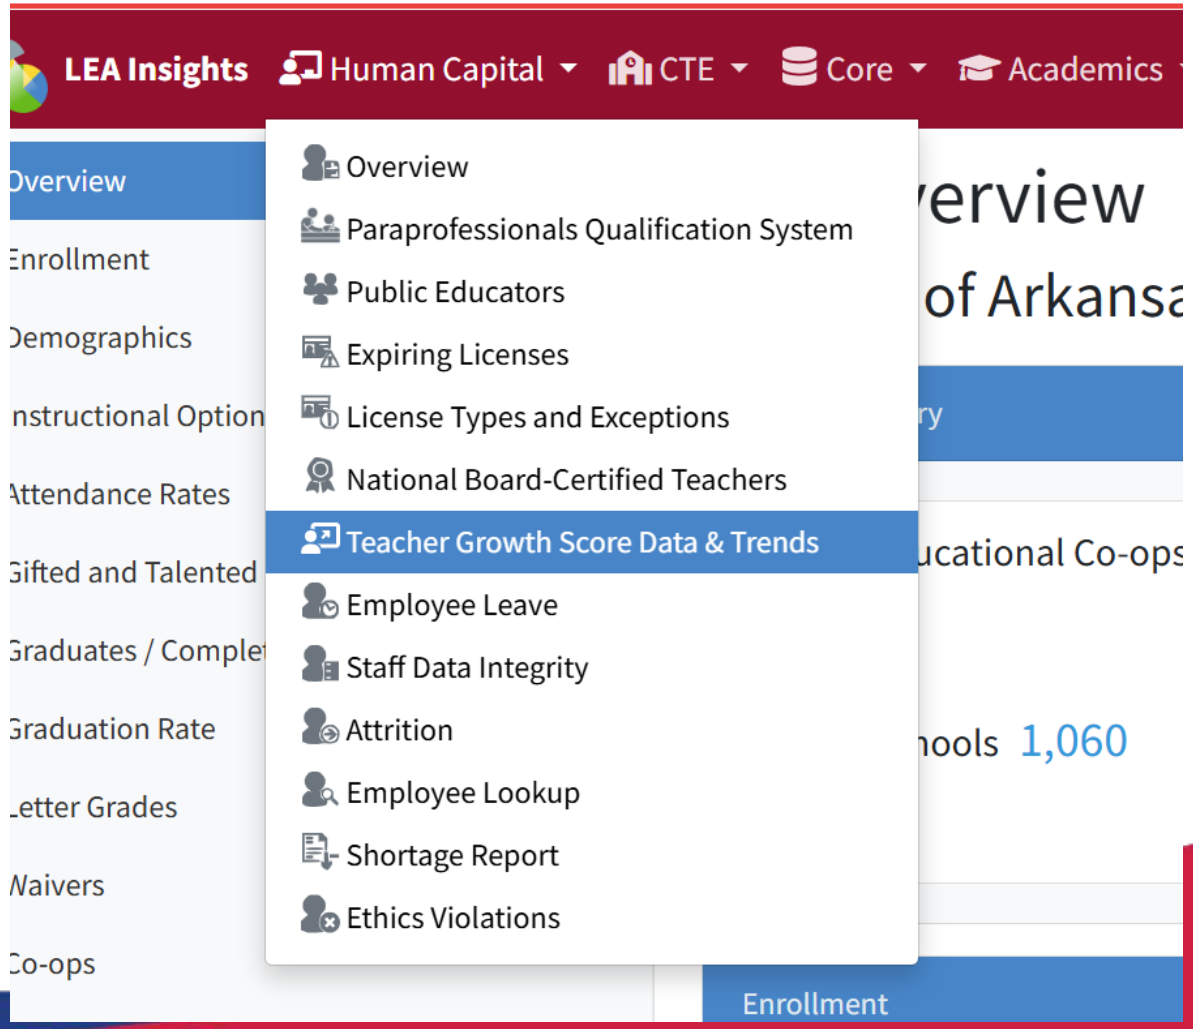
Teacher Growth Score Data and Trends module

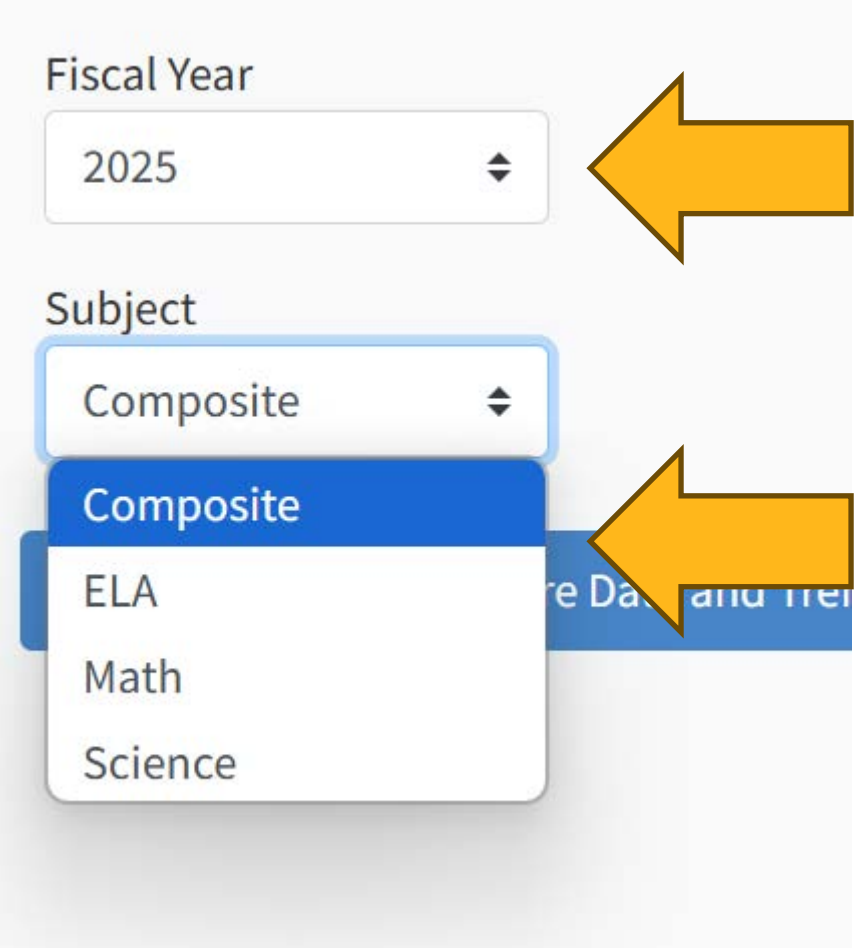
Human Capital tab

The Teacher Growth Score Data & Trends module is found under the Human Capital tab.



What is in the module?

Teacher Growth Score Data and Trends



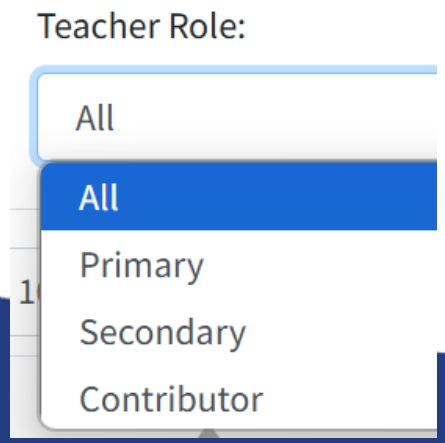
Data on current teachers (2024-2025 Cycle 2)

Data at the composite level (averaged across subjects) as well as broken down by subject.

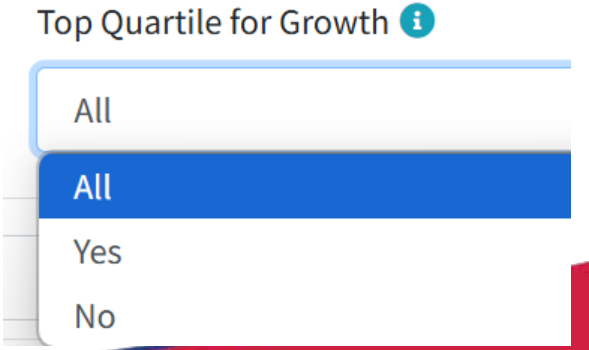
What is in the module?

Teacher Growth Score Data and Trends

Choose a subject.



Filter by last name, first name, teacher role and/or **top quartile for growth in ELA or Math**



What is in the module?

Teacher Growth Score Data and Trends

- Three years of teacher growth scores (2022, 2023, 2024)
  - Identify trends over time
  - Understand the data behind the 3yr average

- Student Weighted 3-Year Average Growth Score
  - 3-Year Average is used for the merit incentive category, “Demonstrate outstanding growth in student performance.”
  - A composite 3-Year Average of 80 or higher is one way to demonstrate a positive impact on student growth for merit incentives

What is in the module?

Teacher Growth Score Data and Trends

- Growth Data Based on Teacher Role
  - Only for 2024 when Roster Verification System allowed for **secondary** teacher of record and **contributor.**
  - A teacher with multiple roles will typically have a different growth score for each role.

- Top Quartile flag for **ELA and Math**
  - A.C.A § 6-17-431 and A.C.A § 6-17-429 reference **assigning students who have not met readiness standards to a teacher with a three-year growth score in the top quartile for ELA or Math.** Refer to the Rules Governing Math Intervention and the Right to Read Rules for more information.

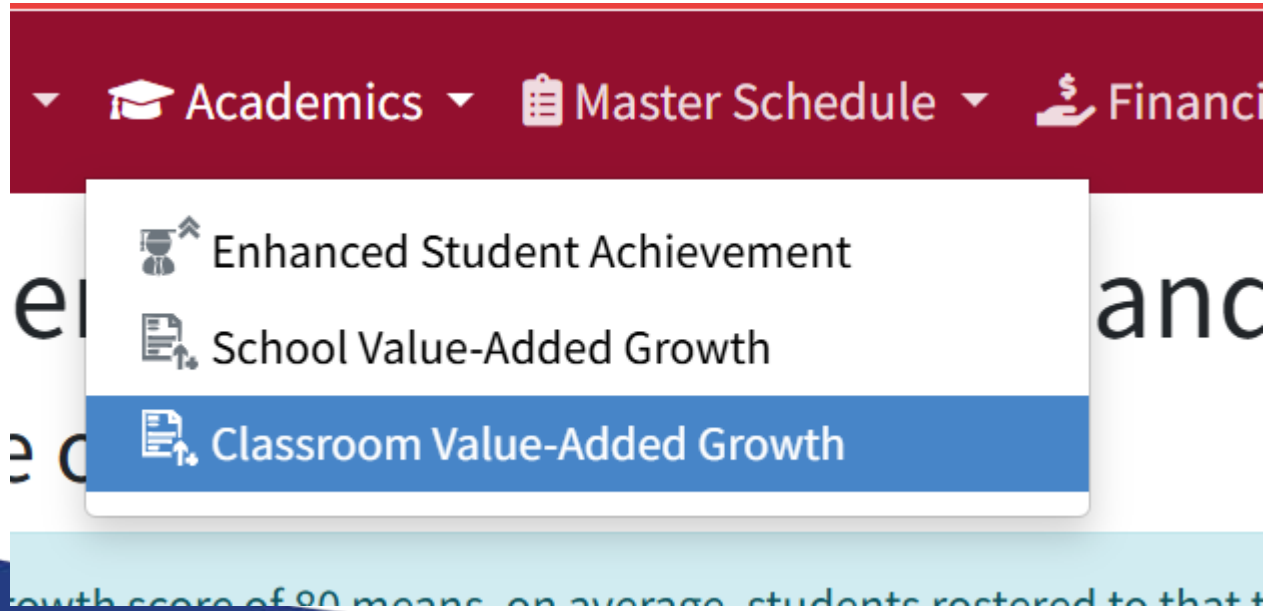
What is a Teacher Growth Score?

- A teacher growth score of 80 means, on average, students rostered to that teacher are meeting expected growth.
- A growth score higher than 80 means that teacher's students are growing more than expected on average, and a growth score below 80 means that teacher's students are growing less than expected on average.
- Teachers must have at least **10 non-highly mobile students in the same tested subject** to receive a growth score.
- Student growth scores show us if a student learned as much as we expected them to learn in a year. Student growth scores are calculated by DESE using students' prior assessment score history.
- Measuring students' growth reinforces the idea that all students can learn and can demonstrate learning regardless of where they are on the achievement continuum.

Classroom Value Added Growth Module

Academics tab

Visit the Classroom Value-Added Growth module under the Academics tab to learn more about the growth scores of individual students rostered to each teacher.



Note- The Classroom VA Growth module:

- Contains highly mobile students
- Will show teachers who may have less than 10 students in the same tested subject
- Disaggregates by grade level

Training Opportunities!

DESE Office of Educator Effectiveness and Licensure will host a webinar where participants can gain a better understanding of the data within the Teacher Growth Score Data and Trends module.

Tuesday, April 8, 2025
9:00am-10:00am
Or
2:00pm-3:00pm
Zoom Link: https://us06web.zoom.us/j/9775174314
